

EVALUATION OF TEAM PERFORMANCE IN EOC 4804 OCEAN ENGINEERING DESIGN

Instructor: Karl von Ellenrieder

Semester: Spring 2010

Project Title:

Evaluator's Name:

Evaluator. Based on the design accomplishment, team effort and presentation, please rate the team's overall attainment of the following outcomes. Any additional comments (on the back) are welcomed. Please return the completed forms to Dr. Karl von Ellenrieder. Thanks!

Item	Evaluation			ABET Outcome
	Poor	Satisfactory	Excellent	
1. Knowledge of basic science, mathematics and engineering subjects				a
2. Knowledge of experimental methods and field study				b
3. Computer programming skills and knowledge of engineering software				k
4. Ability to plan and execute an engineering design				c
5. Understanding of economic, societal and political impacts				c, h, j
6. Ability to function as a team				d
7. Ability to communicate effectively				g
8. Preparation for Practice in ocean engineering				k
