[FINAL REFLECTION]

How did I connect to and/or impact the Tuscaloosa Community during this experience?

During this experience I felt a strong emotional connection with the Tuscaloosa sense of community, their strength and determination. I feel that I've not really impacted the community as much as it has impacted me. I believe the will of the people in the community shines like a beacon of hope. This experience as greatly affected what I value in life.

What am I looking forward to upon my return to my campus/my community?

I am looking forward to personally serve/engage the Boca Raton or Habitat. Also, the inspire members of my chapter through service to ~~be~~ get them to want to perform more service, or to engage more in communities outside of the chapter/Greek community. As president, be sure my chapter participates more in other programs and events. Be a good leader.

As a result of this experience, what do I want to do differently in my life?

I want to make sure to value each day. To be more kind, more understanding, more compassionate. Not harden members to change, but inspire change through my own actions. Constantly tell my loved ones how much I appreciate them.

"The most beautiful people we have known are those who have known defeat, known suffering, known struggle, known loss, and have found their way out of the depths. These persons have an appreciation, a sensitivity, an understanding of life that fills them with compassion, gentleness, and a just, loving concern. Beautiful people do not just happen."
