What comments or suggestions do you have to improve the volunteer notetaking process?

- **Thank you (6)**
 - Thanks you all did a great job I am very happy for my first year at FAU. I look forward to next semester. Thanks Michelle for being you and welcoming me to your office. You made me feel like family :)
 - Good Job
 - It was a fantastic service. It really helped me with notes I may have not heard or missed.
 - Best notes this semester
 - The fact that this program exists and has helped me tremendously. Thank you
 - In my current classes our notes have all of our exam questions answers. I could not have passed these classes without my notetakers. Thank you again.
- **Found my own notetaker (2)**
 - I found my own notetaker
 - I found my own notetakers and got my notes after every class
- **Great Notetaker (5)**
 - Please really recognize my notetaker Christos from my Small Business class.
 - Some of my notetakers were very helpful and caring. When they were not in class they would leave me a note saying that they were sorry so I wouldn't wonder.
 - I will like to thank for this opportunity given to me. I will like to mention that Santino Sericolo was extremely helpful and on time every week. I appreciated all his help.
 - Jason Relyea was great. Good notes and always on time. Also suggest Professor Massad for QMB!
 - Strongly suggest Mike as a notetaker, first male notetaker that does the job well and efficiently which is hard to find.
- **Box.net/E-mail (6)**
 - Box.net was a lot of help
 - Some notes in mailbox lagged; Internet notes much faster.
 - Box.net amazing!
 - Box.net Thanks *confidentiality* I want to thank you for helping me receive my notes quicker by using www.box.net. My notetakers found it to be easier than coming into the office.
 - Emailed notes are awesome
 - Box.net awesome

- **Workshops (1)**
 - More incentives for notetakers or being better informed of current incentives (Volunteer hours, notes in file) Extra effort to find backups, as sometimes main notetaker cannot make it to class.
- **Reminders (1)**
 - Email (automated is ok) reminders to students about all services and actions: Need to turn in forms, reminders of testing dates and time at least a day before, notes ready in your box.
- **Legibility/Content (3)**
 - Please make sure notes are legible
 - They need to be much more consistent and adequate in their information provided in their notes.
 - The majority of the notes I received had errors in them. I received notes from several students for most/all the classes I had notetakers in. The only way I was able to find mistakes was because I also recorded the lectures and review them. SO I had to keep track of those notes tended to have mistakes and did not use them. This ended up happening with most notetakers. I also got notes the day before and often the day of exams, so they really did not help. I don't think notetaker were reviewing or checking over notes before turning them in. It would be a helpful accommodation if I was able to receive 1 set of accurate notes in a consistently timely manner than 6 to 7 sets of notes with mistakes at the last minute. If there is anyone in my classes receiving notes via a scribe I would value having access to those notes. Thank you for all your efforts to make this program run well.
- **Timeliness (2)**
 - Somehow make it possible for all notes to be turned in promptly, other than that, thank you, Great Work
 - I have been very satisfied with OSD's Notetaking Services in the past 4 years. Unfortunately I didn't have the best notetaker this semester. One notetaker emailed notes whenever she is in class.
- **Notetaking process (2)**
 - Miss communication (incorrect notetaker phone number) delayed the start of Biology of Cancer notes/ Also misplacement of my notes w/another students box caused massive delay for finals + exam prep. (Michelle knows Lauren vs. Laura, Biology of Cancer vs. Life Science. The Biology of Cancer notes were great + on CD helped a lot.
 - I would prefer if OSD would either contact either the notetaker or professor rather than requiring me to do it. Too often the professor doesn't read the confidentiality form or the specific accommodations. Furthermore, the professor also often doesn't like to bring the exams to OSD, so perhaps OSD could find a more convenient process.
- **Other (2)**
 - More Pets Please!
 - I was in an internship for 5 weeks this semester and didn't utilize notetaker services. In the past semesters I have always been provided with a notetaker.

Attention all Volunteer Notetakers

Options for delivering notes:

1. Using OSD Copy Machine
2. NCR paper
3. Fax
4. Email
5. www.box.net FREE online storage

How to use www.box.net:

Another option for typed or scan notes is that you can post them on www.box.net. This is a free online storage website where you can store the notes for the class you are volunteering as a notetaker. Then you would invite the students needing notes to www.box.net to download the notes.
