

GRADUATE EXIT SURVEY

Graduate Name:	Date:
Area of Study:	
Thesis/Project Title:	
Number of Publications:	Submitted:
Accepted:	
Starting Date of Graduate Study:	

Outcome 1: Graduates will have knowledge in civil engineering and related subjects significantly beyond the baccalaureate level.	Graduate Perception (1-5*)
You have deep understanding of your own area of concentration, while appreciating the interconnectivity of various disciplines	
You have acquired and retained sufficient fundamental knowledge that will create a strong foundation for a life-long learning process	
You have demonstrated strong potential for future professional success	

Outcome 2: Graduates will have an ability to independently conduct research or a significant practice-oriented project in civil engineering.	Graduate Perception (1-5*)
You have learned fundamental engineering concepts that can be used to answer critical questions encountered in research and practice	
You have the ability to independently explore solutions to practical and fundamental engineering problems	
You have shown promise in critical thinking, innovation and creativity	

Outcome 3: Graduates will be able to communicate their ideas and results in written, oral, and graphical forms.	Graduate Perception (1-5*)
You have demonstrated superior skills in technical writing	
You can meaningfully analyze research results and effectively communicate their findings through oral presentations	
You are able to complete his/her thesis / project in a responsible and timely manner in accordance with their approved Plan of Study
