Dear Colleagues:

Attached is a summary of the graduate assessment data for 2011-12. Overall, the data indicate that our Ph.D. and M.A. students have been meeting the criteria for Competence in Scientific Method and for Scientific Literacy ($\geq 70\%$ success rate). Please download a copy of the data. We will discuss the implications of the data for improving the graduate program at a faculty meeting in the Fall.

Please continue collecting the data as your graduate students submit their dissertation/thesis drafts as per the graduate assessment protocols.
