As you can see, the Developmental Group has upgraded their assessment outcomes. The other areas should also review their assessment data and update their outcomes if warranted. Remember that we are being asked to show how our assessment data is being used to improve the curriculum/student learning. I will schedule a departmental retreat to discuss this with the faculty once all of the groups have met and reviewed their outcomes. Please get this done this semester! Thanks.

Dear Dave and Jenny,

The SACS committee for The Psychology of Human Development (DEP 3053), consisting of Alan Kersten, Erika Hoff, Marissa Greif, Martha Hubertz, and myself, has developed new learning objectives, assessment items, and a plan for administering the items (see attached). Please distribute the attachment to all instructors of Human Development this and subsequent semesters. Thank you.

Best,
Dave
