

# 2011 National Cyber Security Awareness Events at FAU

October

National Cyber Security Awareness Month

staysafeonline.org

October has been designated National Cyber Security Awareness Month (NCSAM) by the National Cyber Security Alliance (NCSA), a consortium consisting of the U.S. Department of Homeland Security (DHS) and partners from Federal, State, and local government, academia, and industry. The NCSAM program at FAU will focus on educating our students, faculty, and staff about how to secure their parts of cyberspace, mobile devices, laptops, tablet and desktop computers, personal information, data, and critical University infrastructure.

Information Resource Management (IRM) is sponsoring a series of informative presentations at the FAU campuses the week of October 24–28. All presentations will be video-conferenced and shown in Boca Raton (Room OD203), Davie (Room LA139), and Jupiter (Room SR200).

If you have any questions, please contact Larry Thomas, 561-297-3259, [lthomas@fau.edu](mailto:lthomas@fau.edu).

	Monday October 24	Tuesday October 25	Wednesday October 26	Thursday October 27	Friday October 28
