What was your primary applications?

Access 2013	0	0%
ATLAS.ti	0	0%
EMS 6	0	0%
Excel 2013	3	50%

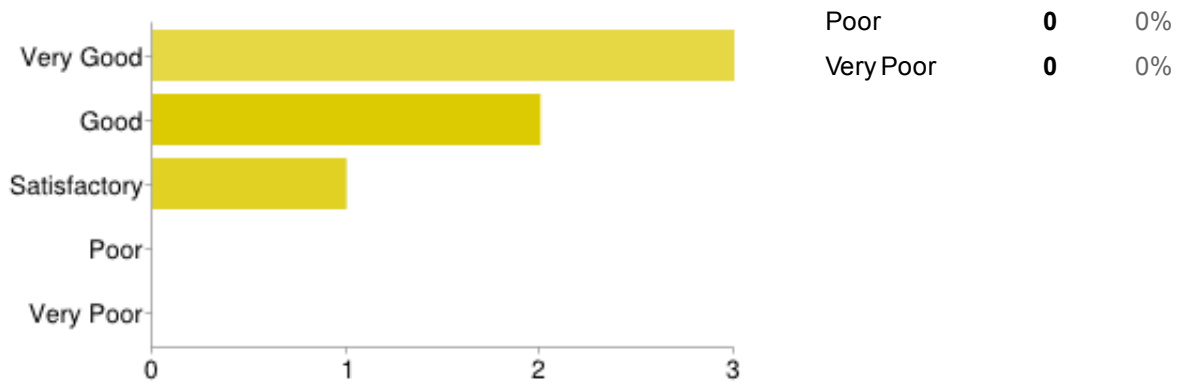

Are there any additional applications you would like to see published through VirtualApps.fau.edu for either staff or students?

Did you experience any errors or odd prompts during usage? If so, please explain.

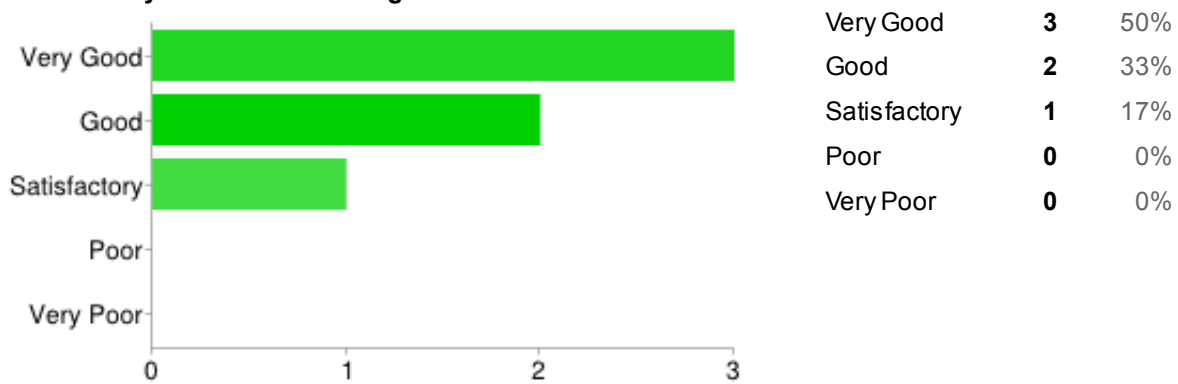

No it worked well, it was able to use my flash drive to save to and everything. I and also 100 miles away in Naples, FL. So it works well outside of Boca Raton No. issues sending email, odd path to access files on local drives. Seemingly random crashes of client in which a restart of client is needed.

How would you rate the following? - Simplicity of install and configuration

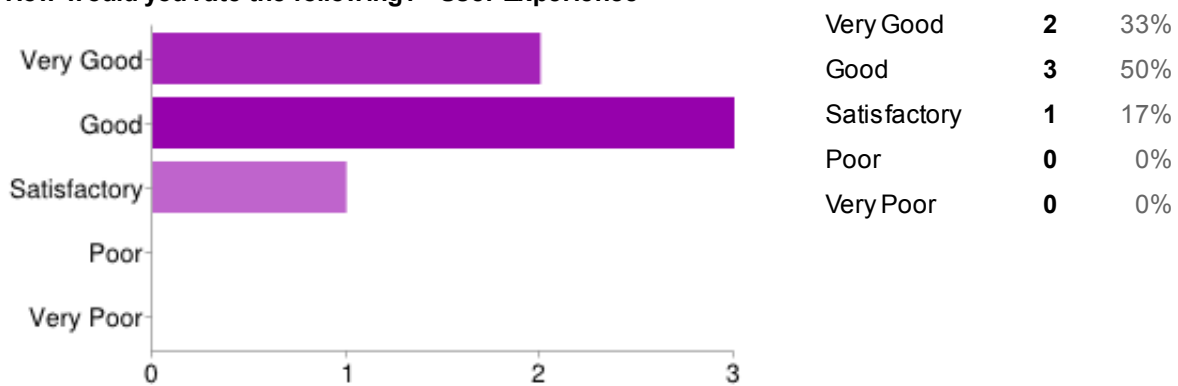

Very Good	3	50%
Good	2	33%
Satisfactory	1	17%

How would you rate the following? - Overall Performance

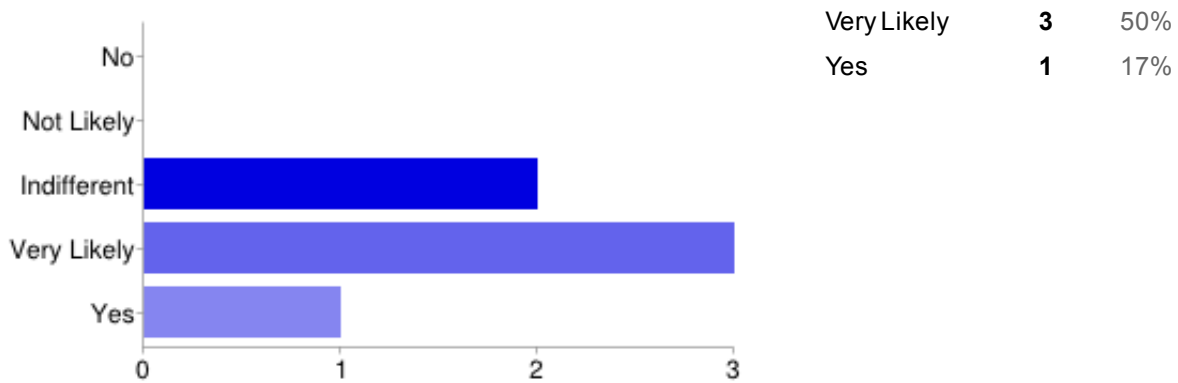

How would you rate the following? - User Experience

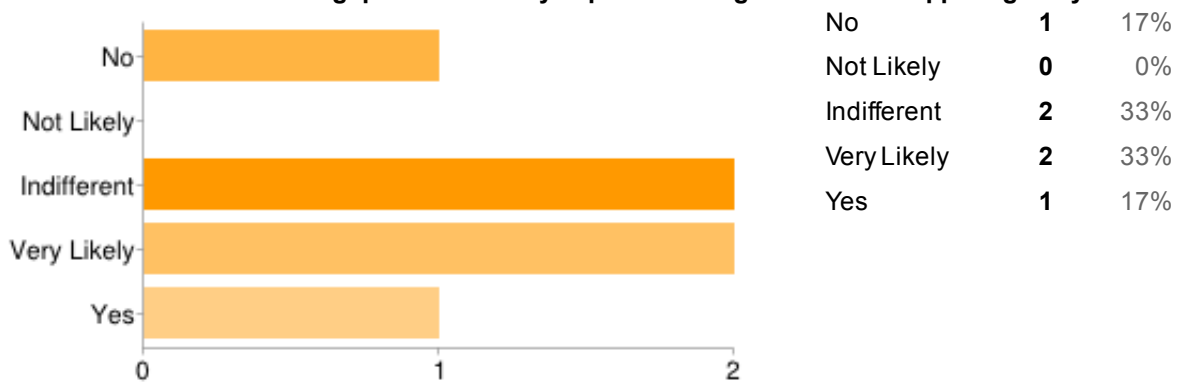

Please answer the following questions. - Would you recommend FAU's VirtualApps?

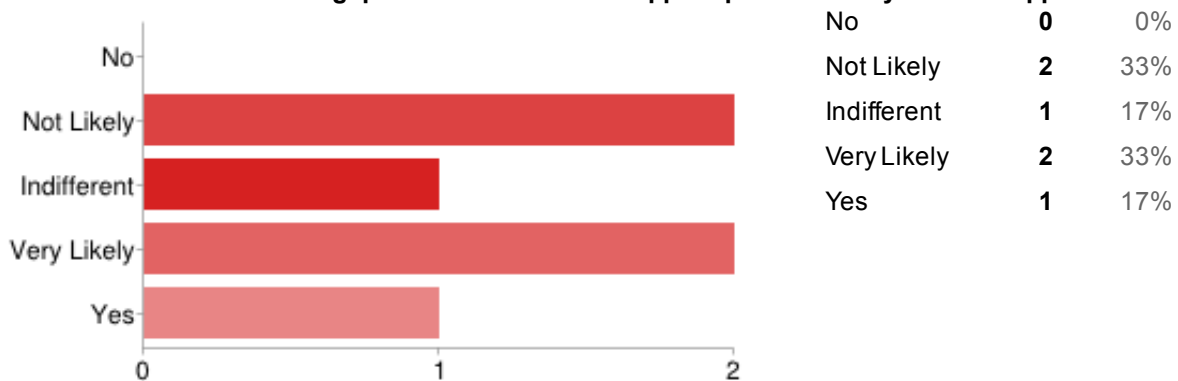

No	0	0%
Not Likely	0	0%
Indifferent	2	33%

Please answer the following questions. - Do you plan on using FAU's VirtualApps regularly?

Please answer the following questions. - Will VirtualApps replace a locally installed application?

Additional comments or suggestions

Sometimes there was slight processing lag that would annoy me. I have everything I need natively installed. The biggest issue I have is I could see the potential of people being confused on whether they are saving natively or within the VM. People have a hard enough time saving and keeping track of files without additional steps. I can

see these virtual apps being extremely beneficial for students. It would be great to find a licensing solution with Microsoft where a student could lease a license for a semester to access Word/Excel/Access. The library or library documents functions decently. Th ...
