

Applicant Name:	Dr. Tina M. Penhollow	Applicant Title:	Assistant Professor
Applicant email:	tpenholl@fau.edu	Department:	Exercise Science & Health Promotion
Course Name	Research & Evaluation	Course number:	PET6505C
Credit hours:	3 credits	Anticipated course cap:	40
Anticipated semester to teach course on overload			
Semester	Fall	Year	2013
If you tentatively plan to require face-to-face meetings, how many will you require? Keep in mind that for this program no more than 20% of the course can be face-to face.		I do not intend to require face-to-face meetings.	
Please provide a brief description of the course including its role in degree programs, any pre-requisites or co-requisites, etc.			
<p>PET6505C – Research and Evaluation is designed to provide the fundamentals of basic and applied research in the fields of exercise science and health promotion. The activities in the course include understanding the application of statistics as a means to analyze and evaluate the research literature, as well as enable the student to construct a proposal of their own research investigation in the field of exercise science and health promotion.</p> <p>PET6505C – Research and Evaluation is a required core course for all graduate students in all three tracks (Health Promotion, Exercise Physiology, Strength and Conditioning) in the Department of Exercise Science and Health Promotion. There are no co-requisites or pre-requisites for PET6505C, except for graduate status in the program.</p>			
Please provide a brief description of your experience with eLearning:			

I have experience teaching a number of undergraduate and graduate courses online using both WebCT and BlackBoard.

Please tell us your primary concerns about converting this course to an eLearning course:

PET6505C - Research and Evaluation was converted into an eLearning course Fall 2010. There are, however, many features of BlackBoard for which I am unfamiliar that could be utilized to enhance this required graduate course. I would welcome the opportunity to further develop PET6505C - Research and Evaluation by expanding my knowledge of BlackBoard through a course offered by the Center for eLearning.

The Center for eLearning will assign participants to one of the cohorts below.

Blue Team

Course period: August 24 – November 9

Required face-to-face meetings 8am-5pm on the following days:

Aug 24

Oct 19

Nov 9

Red Team

Course period: August 31 – November 16

Required face-to-face meetings 8am-5pm on the following days:

Aug 31

Oct 26

Nov 16

Please indicate which of the following your schedule will permit:

☒ Blue Team

☐ Red Team

☐ I can participate in either team.
