

PLAN OF STUDY

I am somasish chaudhury , joined FAU physics Graduate programm on Fall , 2008. I took all the main core courses, like quantum mechanics , statistical mechanics , classical mechanics , Electromagnetic theory , Mathematical physics . I passed two qualifying exam (quantum mechanics and Electromagnetic theory).

Right now I am not into rigorous research. I am learning some experimental techniques, like -sample preparation , X-ray machine operation in lab.

I am planning to clear another two qualifying exam in this coming summer (2010). After that I will be taking credits in research.

Thank you,

somasish chaudhury (Z23024169).
